## Announcement of the Mitsui & Co. Scholarship Program for India - 2025

We would like to express our sincere gratitude for your continued support and attention.

Mitsui & Co. is engaged in a wide range of business activities in India, and as part of these activities, we are dedicated to fostering the next generation of talent through our scholarship program. Aiming to further deepen the economic ties and friendly relations between India and Japan, we established the **Mitsui & Co. Scholarship Program for India** in 2024 as a means of fostering India-based human resources who are both knowledgeable about and friendly toward Japan, and who can go on to serve as a bridge between the two countries. The program selects scholarship recipients from among Indian students and supports them for a total of five years, from a period of preliminary language training at a Japanese language school to a four-year period of undergraduate study at any renowned university of their choice in Japan.

For further details regarding the program and how to apply, please refer to the attached brochure.

We appreciate your kind attention and cooperation.

Sincerely,

MITSUI & CO. INDIA PVT. LTD.
